

Business Intelligence

Classify

Create a fully organized document repository that puts you **in control** of your customer data.

Your documents **neatly categorized** with a single click of the button.

What is Hyarchis Classify?

Classify is an application based on **Artificial Intelligence** which puts you in full control of your document repository. Are you struggling with customer files that are burdened with unstructured data, missing documents or incorrectly categorized documents?

Classify will help you restore chaos into order by **automatically** determining what documents are present and what documents are missing in your customer files.

Escape the endless headaches of combing through your files manually and let Classify do the job of accurate classification and quality control instead!

Security:

Our cloud environment is managed with state-of-the-art tooling to make sure that your customer data is always safe with us. Our solutions comply with **ISO 27001 & ISO 27018**

Classify benefits

Compatible with any Document Management System (DMS)

Fully in control of the contents of your document repository

Full automation of your quality control procedures

Manage large amounts of documents cost-efficiently

Extensive coverage within the financial industry

ISO 27001 & ISO 27018
