◆ Hyarchis

**Governance**

Data Integrity

Be ascertained that all your **customer data** is complete and stored in the correct location.

An AI-based application that **automatically** reviews customer data within documents

What is Hyarchis Data Integrity?

Data Integrity is an application based on **Artificial Intelligence** (AI) that automates your quality control procedures.

Our application **automatically scans** your customer files, double-checks the completeness of each file, and ensures that there are no documents stored in the incorrect customer file.

Our Data Integrity application helps you take a hold of your **quality control procedures** by checking large amounts of data in the shortest possible timeframe. Quality control has never been as complete as with our fully automated, cost-efficient, and highly accurate Data Integrity application.

Data Integrity benefits

Compatible with any Document Management System (DMS)

Fast, thorough and accurate quality control application

Applicable to brand-new and historic documents

Continuously improving AI-based technology

Suitable for unstructured documents of any file type

ISO 27001 & ISO 27018

Security:

Our cloud environment is managed with state-of-the art tooling to make sure that your customer data is always safe with us. Our solutions comply with **ISO 27001** & **ISO 27018**
